Challenge:
The Oppenheimer Group needed a foolproof way to monitor and track more than 100 varieties of fruits and vegetables around the globe. Previous temperature monitoring solutions failed to provide reliable information.

Time and temperature certainty are essential for perishables on the move.

Solution:
The Oppenheimer Group deployed GO Real-Time cargo trackers:
- On perishable, high-value loads; cold storage facility transfers
- Access to real-time temperature and location data
- Opportunity to correct out-of-temperature loads

Results:
- Saves time and money via on-demand access
- Pinpoints accountability in the event of truck claims
- Limits load rejections

Food quality is a differentiator

Brand reputations are built on the promise of delivering consistently exceptional food and dining experiences.

84% of consumers hold manufacturers and retailers responsible

48 million people (1 in 6 Americans) contract foodborne illnesses each year

Protecting food quality and sustainability

Food Safety and Quality
- Cooper-Atkins temperature monitoring and management
- Dixell parametric, system and facility controls
- Electronics and controls
- Cargo trackers and loggers
- ProAct connectivity and monitoring
- ProAct alarm management and food quality services
- Vilter industrial refrigeration

Energy and Sustainability
- Copeland efficient compressors and refrigeration systems
- Copeland alternate refrigerant compressors and systems
- Dixell parametric, system and facility controls
- Electronics and controls
- Commissioning services
- ProAct connectivity and monitoring
- ProAct reporting, services and insights
- Transformative Wave HVAC and RTU management systems

Emerson has solutions for critical areas, applications and markets

Copeland™ Compressors and Refrigeration Systems
Vilter™ Industrial Refrigeration
Facility Management Systems and Dixell™ Controls
GO Loggers and Trackers
Cooper-Atkins™, ProAct™ and White-Rodgers™ Temperature Management
ProAct™ Connectivity, Insights and Services
Project Management
End-to-end data, services and insights
